November 2013

Good Morning, Supporters of Grazing and GrassWorks!

The GrassWorks Board of Directors is pleased to announce that The GrassWorks Foundation Fund has accomplished its goal of raising **\$10,000** over the past year. We wish to say a special **Thank You** to twenty-five families, individuals and businesses who have made this possible. Now we need to build on this momentum. Our goal is to raise another **\$10,000**, or more, this year as we grow The GrassWorks Foundation Fund.

The purpose of the GrassWorks Foundation Fund is to serve as a reliable funding source to ensure long-term financial stability for educational leadership and advancing grass based agriculture. The investment interest from this fund will replace the decline of public grants and supplement private grants to fund our operations and grazing projects.

Since the founding of GrassWorks, the Board of Directors and many individuals have dedicated themselves to its long-term success by their time, expertise, and financial support. Like you, all of these people believe in our mission to advance grazing. Together we need to make sure GrassWorks continues to work for fair governmental policy, healthy food, sustainable conservation, informative education and sound research into the future.

You have benefited from managed grazing, believe in our mission and now we need your financial support. We especially want to encourage those who have not made a donation to do so. We also ask the original “twenty-five” to consider making a like contribution this year.

We ask you to faithfully and generously participate in *The GrassWorks Foundation Fund* this year.

Building a Future, because Grass...Works!

A handwritten signature in cursive script that reads "Dave Johnson". The signature is written in black ink on a white background.

Dave Johnson
GrassWorks President

GrassWorks 501(c)3 non-profit membership organization that works to support education, on-farm research, and adoption of managed grazing. It is a voice for sustainable farming.
